

YOUR PERSONALIZED SKIN WELLNESS RITUAL

Skin is the human body's largest organ and its condition and quality is not just restored, repaired and perfected with one marvelous ingredient, but through a process or ritual.

Haute Custom Beauty did extensive dermatological research with hundreds of subjects to define the most effective skincare ritual steps to obtain visible and long-lasting effects and to sustain ultimate skin wellness.

*Based on one of over 800 different types of skin, these are the **personalized recommendations** on what is the most beneficial skincare ritual for **your** specific profile.*

THE PERFECT HAUTE MORNING RITUAL

1 **CLEANSE, PURIFY, PRE-TREAT**
Cleanse using a MARINE CLEANSER.

TONE, CONDITION, OPTIMIZE SKIN'S PH LEVEL
Apply a COLLAGEN TONIC
by smoothing on face, neck and décolleté.

8 **TREAT, REPAIR, RENEW**
If you have a personalized MDFUSION LAB SERUM
CONCENTRATE, apply 3-4 pumps by smoothing on face,
neck and décolleté.

EYES
Apply the UPPER LID AND
CONTOUR SUBLIME EYE BALM
If you have a personalized MDFUSION LAB EYE SERUM
CONCENTRATE massage around eye area prior to the Balm.

5 **QUENCH, DEFEND, PAMPER**
Apply the RADIANCE SUPERBE DAY CREAM SPF
35 If you have any dry areas you can apply a thin layer of
your MOISTURIZER SUPREME prior to the DAY
CREAM to entire face or dry areas.

THE PERFECT HAUTE NIGHT RITUAL

CLEANSE, PURIFY, PRE-TREAT
Cleanse using a MARINE CLEANSER. If you wear makeup, first
remove makeup and then cleanse again.

**TONE, CONDITION, OPTIMIZE
SKIN'S pH LEVEL**
Apply a COLLAGEN TONIC by smoothing on face,
neck and décolleté.

TREAT, REPAIR, RENEW
Apply your MD FUSION LAB SERUM
CONCENTRATE or a full ELIXIR dropper from a
4-WEEK SKIN WELLNESS PLAN.

EYES
Apply the UPPER LID AND
CONTOUR SUBLIME EYE BALM.
If you have a personalized MDFUSION LAB EYE SERUM
CONCENTRATE massage around eye area prior to the Balm.

QUENCH & RESTORE
Apply a MOISTURIZER SUPREME

AUSTIN • BARCELONA

YOUR PERSONALIZED FORMULA

MDFUSION LAB SERUM CONCENTRATE

Every Serum Concentrate is personalized based on one of over 800 different skin types or DermaProfiles™. This report includes the biotech actives and botanical extracts that are included in yours, in order to satisfy your current skin's needs.

DermaProfile™:

FOR A HEALTHY GLOW

GLYCOSAMINOGLYCANS

Polysaccharides that work on the appearance of revitalized, replenished skin.

SODIUM HYALURONATE

Provides deep hydration for a reduced appearance of fine lines.

CHOLESTEROL

Plant derived with protective qualities and encourages the look of quenched skin.

NIACINAMIDE

Improves the look of elasticity and reduces the appearance of dark spots.

YOUR SKIN'S SOOTHING BEST FRIENDS

FAEX YEAST EXTRACT

Works has calming properties and helps to soothe and alleviate the appearance of reactive skin.

ORYZA SATIVA (RICE) EXTRACT

Brings in soothing and conditioning properties.

AVENA SATIVA (OAT) KERNEL EXTRACT

Acts upon the top layers of the skin for a soothing effect.

ALOE

Soothing and hydrating.

ALLANTOIN

Extract from the chamomile flower with soothing properties.

CALENDULA EXTRACT

Has soothing and antioxidant properties.

CHAMOMILA RECUTITA FLOWER

Has antioxidant properties and works on soothing and calming.

TO CONDITION SKIN TO BE MORE RESILIENT

HYDROLIZED LINSEED EXTRACT

High in Omega-3 fatty acids for antioxidant properties and to provide an appearance of fortified, comforted skin.

PHYTOSPHINGOSINE

A lipid with ceramides that acts to restore for the appearance of a radiant, smooth complexion.

CERAMIDES NP

Improves the look and feel of skin.

CERAMIDES AP

Normalizing and targets the appearance of shedding.

HYDROLYZED SWEET ALMOND PROTEIN

Works on reducing the appearance of irritation and works on resilience.

ULTRAHEAL RESTORE CONCENTRATE

YOUR OPTIONAL ADD-ONS

Every serum is matched by our algorithm to optional add-ons that are compatible to its dermal qualities which could potentially benefit. These are always elective.

Stressed skin, due to harsh skin conditions, hypersensitivity or medical treatments, greatly benefits from restorative and ultra-soothing extracts to immediately calm, comfort and work at deeper levels to improve the appearance of scaling, redness and reactive skin.

KEY INGREDIENTS

CERAMIDESAP, NP and EOP

Ceramides are major components of skin's outer layers and they are necessary for skin's water-retention capacity. These act as 'moisture magnets' and help with the appearance of reactive skin conditions.

HIPPOPHAE RHAMNOIDES FRUIT OIL

Pulp extracted from the sea buckthorn berry, high in carotenoids with properties beneficial to the appearance of reactivity, burning or wounds.

ROSE HIP OIL

Rich in polyphenols and anthocyanin which may alleviate the appearance of stressed skin.

ANTARCTICINE®

Biotech ingredient derived from a seaweed found in the Antarctica with nourishing and soothing properties to target the appearance of damaged skin.

AVENA SATIVA

Known to have soothing and antioxidant properties.

ALLANTOIN

Extracted from Chamomile with restorative properties.

ALLIUM CELBA BULB EXTRACT

Onion extract has been seen to reduce the appearance of scars.

PANTHENOL

Reduces appearance of roughness, redness and stressed skin.

PEPTIDE INTENSE CONCENTRATE

YOUR OPTIONAL ADD-ONS

Every serum is matched by our algorithm to optional add-ons that are compatible to its dermal qualities which could potentially benefit. These are always elective.

A comprehensive cocktail of multi-faceted, newest generation peptides for an undiluted booster that targets the appearance of skin firmness.

WHAT ARE PEPTIDES?

Peptides are fragments of proteins made up of amino acids and they are the fundamental blocks of skin. Peptides in skin work on texture, firmness and appearance of wrinkles. They can 're-teach' skin to work in a certain way so that skin in a way is revived. Not all peptides are created equally, there are hundreds of peptides, including some very advanced peptides created through recent biotech research for elevated results.

KEY INGREDIENTS

EMORTAL™

A peptide created through a biotech combination of pea protein, olive and phytoesters to target the appearance of plumpness and firmness.

DIPEPTIDE DIAMINO BUTYROYL BENZYLAMIDE DIACETATE

Peptide believed to block uptake of Na⁺, which in turn helps with the look of muscle contraction for a reduced appearance of wrinkles.

ARGIRELINE® PEPTIDE

A hexapeptide that targets the appearance of wrinkles due to facial muscle contraction.

DECAPEPTIDE-2

A peptide that targets skin hydration.

TRIPEPTIDE-3

Plant-based biotech peptide that mimics the effects of a venom found in Temple Vipers which targets the appearance of fine lines and wrinkles.

PALMITOYL TRIPEPTIDE-5

Targets the appearance of saggy skin due to oxidation.
